[2]

2 A computer system processes data by using applications software and system software.

(a) Describe the following types of applications software.

(i) Word processing

.....

.....

.....

.....

[2]

(ii) Control software

.....

.....

.....

.....

[2]

(iii) Apps

.....

.....

.....

.....

[2]

(b) Data can be in two forms, analogue or digital.

Explain why analogue data needs to be converted to digital data.

.....

.....

[1]

[1]

[6]

[1]

- State **one** piece of test data, from each of the following, that would be used to test the range check is working correctly.

- [1]

- [1]

- [1]

- (a)** Discuss the use of video streaming to watch movies.

[illegible]

(b) Explain what is meant by file compression.

.....

.....

.....

.....

.....

.....

[3]

6 Many taxis now use satellite navigation systems.

Evaluate the use of satellite navigation systems for taxis.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[6]

7 Explain, giving examples, the purpose of a corporate house style.

.....

.....

.....

.....

.....

.....

.....

.....

[4]

8 State the method of implementation from the following descriptions.

(a) The old system and the new system run together until the whole of the new system is implemented.

.....

[1]

(b) The new system is implemented one branch at a time.

.....

[1]

(c) The new system is implemented one process at a time.

.....

[1]

9 A local area network (LAN) uses a hub.

(a) Explain the purpose of a hub.

.....

.....

.....

.....

.....

.....

[3]

(b) Describe **one** drawback of using a hub on a local area network (LAN).

.....
.....

[1]

10 During the analysis of a current system, research needs to be carried out.

(a) Describe the characteristics of each of the following research methods.

(i) Observation

.....
.....
.....
.....

[2]

(ii) Interviews

.....
.....
.....
.....

[2]

(b) Following the analysis, design of the new system will take place.

Identify **four** items that need to be produced as part of the design of the new system

1.....
2.....
3.....
4.....

[4]

- (c) Following the implementation of the new system it needs to be tested.

Explain why the new system needs to be tested.

.....

.....

.....

.....

.....

.....

[3]

- (d) A test plan includes expected outcomes of a test.

Write down **three** other elements found in a test plan.

1.....

2.....

3.....

[3]

- 11 A student is typing a report for his biology coursework and needs to check his spelling for errors. The student could use spell check software.

- (a) Explain how spell check software works.

.....

.....

.....

.....

[2]

- (b) Sometimes the spell check software highlights words or changes words which are correctly spelt.

Explain why this could have occurred.

.....

.....

.....

.....

[2]

12 When sending emails users should follow netiquette.

(a) Explain what is meant by netiquette.

.....

.....

.....

..... [2]

(b) One of the rules of netiquette is to avoid sending the same message repeatedly as this is considered to be spam.

Describe, giving an example, **three** other rules used in netiquette.

Rule 1.....

.....

Example 1.....

.....

Rule 2.....

.....

Example 2.....

.....

Rule 3.....

.....

Example 3.....

..... [6]

13 (a) Describe what is meant by hacking.

.....

.....

.....

..... [2]

(b) One method of preventing a system being hacked is the use of passwords.

Describe the password rules that should be put in place to reduce the threat of hacking.

.....

.....

.....

.....

.....

.....

[3]

14 Give **one** example of a generic file extension that would be part of the following types of file.

(a) image

.....

[1]

(b) text

.....

[1]

(c) web page

.....
