MARK SCHEME

Maximum Mark: 50

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2022 series for most Cambridge IGCSE™, Cambridge International A and AS Level components and some Cambridge O Level components.

This document consists of **9** printed pages.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- Marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate.
- Marks are awarded when candidates clearly demonstrate what they know and can do.
- Marks are not deducted for errors.
- Marks are not deducted for omissions.
- Answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Question	Answer	Marks
1(a)	Considering the advantages and <u>one</u> disadvantage, explain why Jos would be most likely to choose the TeknoKratz job. You should <u>not</u> refer to the other jobs. Answer in continuous prose. Credit any of the following points or any other valid points. Jos would be able to maintain a good income / lifestyle as he could be earning around \$60 000 a year. He would also receive a Golden Hello payment right at the start and this would further ease the transition from employee to being self-employed. He would be able to work the 40 hours when he wanted to, so he could devote more time than he is currently to playing football and watching movies with his children. His children might be happier if he were working from home almost all the time as they would see more of him. Being self-employed, if they did ask him to work more hours, then they would have to pay him for these hours, making him feel more valued. By working mainly from home and with all the places he would occasionally have to visit being nearby, he would hardly have to travel. If he had the offer of a better contract down the line, he would only have to give one month's notice and then he could be off / less limiting contract The ten per cent discount offered by Triple C offers everybody doing work for them would also boost the family finances by reducing their food costs, which could potentially <u>alleviate</u> Marika's money worries. The food industry is usually a very buoyant sector of the business world, so Jos would be working in a reasonably recession-proof environment. Triple C care for their customers might tempt Jos on an ethical level (motto) which could outweigh there is no indication how long the Triple C contract might last, so Jos cannot be sure that this would keep him in work for as long as he would like, especially as the founders had to take out loans at a very high rate of interest to fund their expansion, so the business might fail in the future. TeknoKratz being run by two people not long out of university might affect the company's future as they might still be very naive regarding the business world / how to sustain a successful business. TeknoKratz only have to give him one month's notice, so, if they lost the Triple C contract, he would not have long to find replacement contracts. However, both TeknoKratz and Triple C are expanding rapidly, so they might become more and more demanding to work for / might become just as stressful as his current job. Marika worries a lot, so her health might deteriorate if she were anxious about the fact that <u>the length of the contract</u> is <u>unknown</u> / the <u>hours could easily be reduced</u> as it only states 'initially'.	10

Question	Answer	Marks
1(b)	Considering <u>two</u> disadvantages, explain why Jos would be <u>least</u> likely to choose the Pumpkin Pot job. You should <u>not</u> refer to the other jobs. Credit any of the following points or any other valid points. He would be working <u>mostly / three days a week</u> in Pumpkin Pot's offices (1) which would involve a daily round trip of 60 km (1) so he <u>still</u> wouldn't see much of his children <u>on those days / as much as he had hoped</u> (1). Their offices are very cramped and noisy / Jos would have to share a desk and a phone (1) which would be a stressful / unprofessional/not an ideal <u>environment</u> for him to work in (1). The salary is <u>a lot less / the least amount</u> of money on offer (1) which <u>exacerbates</u> further Marika's worries about money (1). If he were offered a better contract by another <u>bank</u> he would not be allowed to work for them for six months (1), meaning the opportunity would probably be lost to him (1). He is <u>currently</u> unhappy working for a bank (1), so he might feel that, by accepting this offer, he would be in the <u>same</u>, unhappy / stressful banking environment as before (1). He is required to work set days and hours in the office (1) meaning he is <u>unlikely to achieve</u> the <u>improved / hoped for control over</u> his work-life balance / time <u>on those days</u> (1).	4
1(c)	Identify the <u>one</u> piece of the Additional Information that is the least relevant when Jos is deciding which offer to accept. Point 16. Jos and Marika met through mutual friends 10 years ago. (1)	1
1(d)(i)	Identify the phrase in the extract from the conversation between Jos and Marika that mean the following: delay in taking action. <u>let the grass grow under your feet</u> (1)	1
1(d)(ii)	Identify the phrases in the extract from the conversation between Jos and Marika that mean the following: thinking about it at length. <u>mulling it over</u> (1)	1

Question	Answer	Marks
1(e)	Explain <u>two</u> reasons why, during the conversation, Jos's face was 'clouding over' and he was sounding 'increasingly downbeat'. Credit any of the following points or any other valid points. He has a friend working at KQX Accountants (1) so he knows that he would be expected to work long hours <u>again</u> / might feel overworked and undervalued <u>again</u> / would be <u>back</u> on the corporate ladder (1). KQX Accountants demand that employees move around the world at a moment's notice (1) but <u>he doesn't want to move</u> away from his home town (1). <u>He</u> would be under pressure <u>from Marika</u> to take this job if he were offered it (1) as <u>she</u> would love to live abroad and experience different cultures (1). <u>He</u> might feel emotionally blackmailed to take it if offered to him / It might impact their relationship negatively if he did not apply / accept it if offered (1) as <u>she</u> is talking about the prospect so excitedly (1). <u>He realises that she would feel</u> that she no longer had to be worried (1) as he would regard the high salary as helping to reduce her money worries (1). Jos is dismayed by <u>Marika's emphasis</u> on the high salary at KQX Accountants (1) as both the roles he has found for himself pay significantly less (so it will be tough to persuade her that self-employment is a good move) (1).	4
1(f)(i)	Explain why Mateus's experience of being self-employed might make Marika <u>not</u> want Jos to become self-employed too. Credit any of the following points or any other valid points. <u>Mateus</u> has had <u>gaps</u> in between his contracts when he hasn't been working (1) so Marika would not have been happy that his earnings might be <u>uneven</u> (1). His circumstances are entirely different (1) as he has not got a family (1). 2 × 1 or 1 × 2	2
1(f)(ii)	Explain why in your opinion, Jos's idea, that he would be his own boss and more in control of his work–life balance if he were self-employed, might <u>not</u> be true. Credit any of the following points or any other valid points. <u>Even</u> being self-employed it makes little difference (1), as you are <u>still answerable</u> to whomever is paying you to do the work (1). If someone knows they are employing you as a consultant, they can sometimes be even <u>more demanding</u> / rude to your face about your work / so that they can pay you less than agreed, etc. (1) as they know you are dependent on their work (1). The self-employed have to find work for themselves <u>and</u> this can be difficult / stressful (1). 2 × 1 or 1 × 2	2
