Paper 3 Structured Questions

October/November 2020

MARK SCHEME

Maximum Mark: 150

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2020 series for most Cambridge IGCSE™, Cambridge International A and AS Level and Cambridge Pre-U components, and some Cambridge O Level components.

This document consists of **15** printed pages.

PUBLISHED**Generic Marking Principles**

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Question	Answer	Marks
2(d)	Cash flow Making all sales on a cash basis would mean the money is received earlier hence improving cash flow. (1) However, the trade receivables collection period is 93 days (1) which is less than the trade payables payment period of 107 days (1) which means that the cash flow issue should not be a problem (1). It can be assumed that the club has negotiated special terms with suppliers to allow for the payments by instalments which might cease if credit sales were stopped. (1) There has been a considerable increase in the funds of the club during the year and therefore it seems likely that there is no need to make this change in order to improve cash flow. (1)OF Surplus/deficit Allowing members to pay in instalments involves a lot of administration and if this was stopped then cost savings might arise. (1) Members might be put off making purchases and the sales of the club might fall. (1) Given that trade receivables have been falling and inventory has been increasing it is possible that the club is already finding it more difficult to make sales. (1) The profit from these sales makes up more than a quarter of the income of the club and this could be jeopardised. (1) The club is already making a deficit and this could be increased by the change. (1) Accept other valid points Max (2) for cash flow, Max (2) for surplus/deficit plus (1) mark for decision	5

Question	Answer	Marks
3(a)	It is a profitable business. (1) The premises are in a good location. (1) There is a strong customer base. (1) The business has a good reputation. (1) The employees are well trained and efficient. (1) Accept other valid points Max 3	3
3(b)	cash (1) shares (1) debentures/loan stock (1)	3
3(c)	The profit sharing ratio is 1:1 (1) and Arthur will have received 50% of the profit on realisation (1). The correct distribution of the purchase consideration depends on whether the partners contributed equally to the business (1) as shown by their capital accounts (1) and whether they withdrew resources equally from the business/taken equal amounts as drawings (1) as shown by their current accounts (1). Decision (1) (1) for Decision plus max (4) for comments	5
3(d)	Depreciation provided had been inadequate (1). The partnership had failed to provide for an impairment loss (1). VC plc had undervalued it during the negotiations for the purchase of the partnership (1). Accept other valid points Max 2	2
3(e)(i)	$300\,000 (1) - 261\,350 (1) = 38\,650 (1)$ OF	3
3(e)(ii)	$261\,350 (1) - 209\,410 (1) = 51\,940 (1)$ OF	3
3(f)	The profit on realisation would be shared equally (1) Arthur and Belinda would gain \$25 970 each (1) OF	2
3(g)	The statement of financial position of a limited company does not show an account for each shareholder/owner (1) and therefore the gain has to be recorded in total (1). The statement of financial position of a partnership does show an account for each partner/owner (1) and so each partner can be credited with his/her share of the gain. (1)	4
